

## LITERACY

Find out about a famous natural disaster that has occurred. For example, a volcano, earthquake, tsunami.

Write a non-chronological report about the famous event.

## DT and ART

Research the famous piece of art called 'The Great Wave' by the Japanese artist Hokusai. Have a go at creating your very own version using any method or materials that you like.

## ICT

Pretend that you are a journalist reporting on a natural disaster that has occurred in your local city, town or village.

Film your news report and then send it in to your teacher for them to watch. Be creative as you like with your news channel!

## GEOGRAPHY

Why do we have volcanoes and earthquakes? How does the earth create them?

Research why they occur and produce some labelled diagrams to explain them.

Have a go at describing how they happen to a member of your family.

# NATURAL DISASTERS

## MUSIC

Compose a piece of music using household items to portray a natural disaster of your choice.

Record it and then send it to your teacher.

## HISTORY

Mount Vesuvius is a famous volcano in Italy. Thousands of years ago, it erupted and destroyed the Roman city of Pompeii.

Carry out some research on this event and create a fact file either by hand or on the computer.

## PSHE

What is a 'Carbon Footprint'? How can we reduce our Carbon Footprint?

Design a poster encouraging people to change their habits in order to stop climate change.

## SCIENCE

Build your own volcano and find out how you can use household items to create a chemical reaction so that your volcano erupts!

Don't forget to send in your photos and videos.
